

DANIEL NAVARRETE

Full-Stack Developer

SUMMARY

I am a software developer, currently studying a CO-OP in Software QA in the CTB at Vancouver, BC.

I have a Study and Work Permit for the next 3 years. I am ready to deliver my skills and willing to learn more. Dedicated and self-motivated. Seeking new challenges where I can use my skills and talents to make a positive impact. Strong desire to keep growing and earn knowledge and experience.

Proven ability to work independently and as part of a team while demonstrating ability to meet deadlines and work under pressure.

- Universidad Autónoma de Guadalajara. Jul 2017 - Aug 2021.

WORK EXPERIENCE

FULL-STACK DEVELOPER – Ventura

Sep 2022 - Aug 2023

- Engineered modern websites using multiple languages.
- Efficiently deployed and integrated software solutions developed by the team, ensuring seamless functionality and performance.
- Performed regular maintenance tasks, such as debugging and troubleshooting, to ensure smooth operation.
- Developed and implemented code for new features that significantly enhanced user engagement while aligning with the established requirements.
- Utilized version control systems (such as Git) to manage codebase and enable efficient collaboration with other developers.

BACKEND DEVELOPER – Banco Azteca

Feb 2022 - Jun 2022

- Developed a Credit Card in the backend team using scrum, worked directly with Java.
- Worked alongside the frontend team in order to connect with the backend services.
- Executed queries in order to have the information from the Data Bases, using MySQL.

SOFTWARE ENGINEER – IBM

Oct 2020 - Oct 2021

- Worked with Java and the backend, following requirements that used to come to the team for multiple purposes and clients.
- Resolved critical issues to open sessions and connections, significantly improving user experience and minimizing disruptions also for development team.
- Successfully deployed code changes to productions environment, ensuring seamless integration of new features.
- Collaborating with an international team, giving feedback to get better practices.
